🎓 Education

B.Tech in Information Technology
Sarvajanik College of Engineering and Technology, Surat
Expected Graduation: 2026

💼 Internship Experience

Web Developer Intern – Prodigy Infotech (Remote)
June 2025 – July 2025
Technologies: HTML, CSS, JavaScript

🔹 Weather App

- **API Integration:** Fetched real-time data using **OpenWeather API** and **Async/Await**.
- **Geolocation:** Implemented automatic location detection via **HTML5 Geolocation API**.

🔹 Tic-Tac-Toe

- **Game Logic:** Developed a custom algorithm to detect win/draw conditions and manage turns.
- **Interactive Design:** Features a "Restart" function and real-time turn tracking for smooth UX.

🔹 Stopwatch

- **Precision Timing:** Built with **millisecond accuracy** using JavaScript timing events.
- **Lap System:** Engineered a dynamic list to record and display multiple time intervals.
- **State Control:** Programmed robust Start, Pause, and Reset logic for efficient performance

📊 Academic Projects

🔹 Financial Data Analysis Tool: Bank Loan Portfolio Performance Analysis

- **End-to-End Data Pipeline:** Managed the full project lifecycle, starting with **Microsoft SQL Server** for data cleansing (resolving inconsistencies, nulls, and data types via UPDATE/CONVERT), through to visualization in **Power BI**.
- **Advanced KPI & Risk Modeling:** Developed three interactive dashboards using **DAX** to calculate complex time intelligence metrics (MTD/MoM) and establish a critical **Good Loan (86.2%) vs. Bad Loan (13.8% Charged Off)** risk analysis framework.

- **Quantifiable Impact:** Monitored portfolio health by tracking **$435.8M Total Funded Amount** and quantifying potential loss from Bad Loans ($65.5M funded), achieving strong MoM growth across all volume metrics.
- **Actionable Insights:** Identified key strategic drivers: **Debt Consolidation** as the primary loan purpose, **36-month terms (73.2%)** as the dominant term, and **California** as the highest volume lending region.
- **Technologies:** Power BI, DAX, Microsoft SQL Server, Data Modeling

Technical Skills

Programming & Tools: SQL, Excel
Visualization: Power BI
Soft Skills: Problem-Solving, Adaptability, Communication, Teamwork

Languages

English (Fluent), Hindi (Fluent), Gujarati (Native)
